Acceptance and performance of w
capability for Naval customer requireme
to the Department of Navy (DoN). To thi
the levels set forth in the table below:

Workload Category
Current mission & capacity (non-Naval work requires an appropriately authorized Memorandum of Understanding (MOU/MOU))
New MOU/MOU and/or
increase to current mission capacity
New Mission (may also require revision of SECNAVINST 5400.15C)

Work for Naval customers may be
within the current mission and capacity of

Subj: NAVAL WARFARE AND SYSTEMS CENTERS ACCEPTANCE AND
ASSIGNMENT OF WORK

Echelon II approval is required for Naval work that would require a W/SC to increase its capacity. Establishing a new technical capability within the mission of a W/SC must be approved by the Assistant Secretary of the Navy (Research, Development and Acquisition) and the Vice Chief of Naval Operations. A new technical capability must be consistent with reference (b).

Non-Naval work that aligns with the W/SC mission must avoid the creation of out-year liability for the DoN or the potential displacement of Naval work. Non-Naval work must be approved by the Echelon I and codified appropriately in an MOU/MOA. Once properly codified under an approved MOU/MOA Non-Naval work may be accepted locally by a SES/Flag Officer.

The Naval Laboratory Center Coordinating Group developed a manual (enclosure (1)) describing the combined technical capabilities of the Warfare and Systems Centers within Naval Air Systems Command, Naval Sea Systems Command and Space and Naval Warfare Systems Command. It is intended for the use of DoN Program Executive Officers (PEOs), the Chief of Naval Research and their Program Managers to accurately assign work to the appropriate W/SC, and should be updated biennially.

To demonstrate compliance with this policy, the SYSCOMs are required to brief the Provider Enterprise Executive Committee every quarter on all non-Naval work accepted/denied by their Warfare and Systems Centers. Further, SYSCOMs are required to submit a combined annual report of all non-Naval work accepted/denied by their Warfare and Systems Centers annually to the Deputy Assistant Secretary of the Navy (Research, Development, Testing and Evaluation) (DASN (RDT&E)) beginning in fiscal year (FY) 2014.

Commands have until the start of FY 2014 to bring MOU/MOAs up to date and in compliance with the new approval levels. Until that time, non-Naval work below \$250,000 may be accepted locally from existing customers and all other work requests must be elevated to echelon II.

SEAN J. STACKLEY

MARK E. FERGUSON, III

- ▼ OSD FTE /ES controls
- ▼ Work Acceptance & Assignment
 - Retain Non-Naval work that:
 - Advances/supports Naval capabilities
 - Retains/advances warfare center technical skills
- ▼ Multiple Award Contracts
 - Impact to contract award timeline
 - Significant reviews/evaluations

SSC Atlantic a Center of Excellence for IT/Cyber
Sean J. Stackley ASN(RDA)

Improvements SSC Atlantic is Making

- ▼ IT/Cyber within DON/DOD
- ▼ Successful engagement within DON on FTE/ES
- ▼ Successful engagement within RDA Work Acceptance & OMOAs
- ▼ Successfully migrating to MAC environment
 - Moving out significant process improvements

Prospective SPARWARSCOM Commander

▼ Rear Admiral David H. Lewis

- Currently assigned as Program Executive Officer, Ships, where he is responsible for Navy shipbuilding for surface combatants, amphibious ships, logistics support ships, support craft, and related foreign military sales
- SPAWAR Change of Command Ceremony 07 August 2014, San Diego
